MASSAGE THERAPY

### Founder / Master Therapist

Hi I'm Simone Lee, founder of Touch By The Angel Massage Therapy.

I found my true passion in health, wellness and the healing arts, while studying psychology as an undergrad at NYU. I was overweight, sore, hurting, sluggish, and my joints were cracking (seriously). Even with lifestyle changes and exercise, I was still hurting, just a different hurt. I started getting massages and educating myself on the mechanics of the body. And the bug bit me. Soon after I successfully passed my licensing exam, practicing massage for 7 years of in NY and NJ, before relocating my business to South Florida. I began further studies in the city of Bogota, Colombia and traveled the world with my amazing clients.

Simone is Awesome! On my first visit she took the time to feel me out and understand my physical issues and the root causes. And then gave me a fabulous massage where she was spot on hitting and relieving my pain points. She also gave me very good long term care advice. A true Angel! Very glad I found her.
